Blue ice trip in Juklavass glacier (with transport from Bergen)

Available daily from 21.06.2011-15.08.2011.

The bus leaves 07:30 in the morning from Nonneseter terminal at Buss Station in Bergen. The bus takes you to Norheimsund; here you have to leave the bus and walk about 30 meter to the boat called "Vøringen". This boat takes you over the Hardangerfjord to Herand. In Herand there is a new bus taking you all the way up to Folgefonn Summer ski center, this is the start point for the glacier trip in Juklavass glacier. After the glacier trip you will travel back to Bergen the same way as when you arrived.
